

CONTENTS

Title	Page
Phytotoxicity of Atrazine, Amitrole, 2,4-D and Eptam for <i>Cyperus esculentus</i> L. under Glass House Conditions H. S. Gill, E. Leo Bendixen and A. Burely William	1
Weed Control in Forage crops-1. Effect of 2, 4-D Amine on Weed Control in Fodder Jowar (<i>Sorghum vulgare</i> Pers.) Vijay Kumar, S. Chandra and G. S. Dhillon	8
A Field Study of the Efficiency of Herbicides as Affected by pre-monsoon Irrigations in Sugarcane Cultivation P. N. Choudhary and V. S. Mani	15
Control of Weeds in Wheat Fields. I-Effect of 2, 4-D and intercultural operations on the weeds and grain yield of wheat R. A. Khan, D. S. Malik and S. K. Dubey	26
Studies on Weed Control in Rice D. J. Chandra Singh, and K. Narayana Rao	31
Direct and residual effect of Atrazine as affected by variations in doses and its mode of application to maize in "Maize-Wheat" Rotation O. P. Gupta and B. K. Dhupia	37
Effect of Nitrogen Levels and Weed Control Methods on Summer Grown Maize Fodder H. P. Tripathi, M. K. Moolani and P. S. Tomer	44
Effect of Pre-emergence Herbicides (C-6313 and C-6989) in Pea (<i>Pisum sativum</i> L.) M. S. Saimbhi, Jai Prakash and Kirti Singh	51
Herbicidal-cum-Cultural Weed Control Studies in High Land Rice. Anirudha Misra and N. C. Roy	56
Ecotypic Differentiation in <i>Gomphrena celosioides</i> Mart. A. K. Srivastava and K. C. Misra	63
Aquatic weeds and their distribution in Chambal commanded area in Kota (Raj.) Oto Brezny and Indu Mehta	70
