

CONTENTS

Title	Page
Effect of Herbicides on the Chemical Composition of the Groundnut Crop (<i>Arachis hypogaea</i>) S. L. Chopra, Sudarshan Kumari and I. S. Bhatia	81
Sprouting of Nutsedge (<i>Cyperus rotundus</i> L.) in relation to hydrogen-ion concentration L. P. Misra	90
Effect of increasing levels of triazine herbicides on weed control in Maize and residual effect on Wheat M. S. Saroha and H. G. Singh	97
Cultural-cum-Herbicidal approach for controlling weeds in Potato crop G. K. Patro, A. Mishra and Abhimanyu Mishra	105
Efficacy and economics of the weedicides at different fertility levels in maize and their residual effect on succeeding wheat crop M. P. Sinha, and T. D. Sinha	112
Weed and their control in Hybrid Maize in Tungabhadra project area K. Krischnamurthy, B. A. Yandagowder, H. M. Harris and V.E. Ross	117
Effect of some Herbicides in combination with Telodrine on weeds and Sugarcane. Onkar Singh, H. S. Gill and B. S. Sidhu	124
Effect of different forms of 2, 4-D on Weeds in Wheat R. K. Sharma, G. S. Chouhan and D. V. S. Chouhan	130
Ecological survey of weeds of Rabi crop of Varanasi District Vinod Shankar	135
Effect of applied herbicides on soil micro-organisms and their activity U. S. Gupta and M. K. Moolani	141
Weed control studies in Vegetable crops II-Evaluation of cultural and chemical methods of Weed Control in Potato (<i>Solanum tuberosum</i> L.) Kirti Singh, Ram Nath and Vijay Kumar	160
