Title	Page
Comparative efficacy of cultural and herbicidal methods of weed control in Bengal gram (<i>Cicer arietinum</i> L.) I. P. S. Ahlawat, A. Singh and C. S. Saraf	1
Weed control studies in sugar beet with phenmedipham and pyrazon herbicides G. Singh, Y. Singh and P. C. Pant	9
Weed flora of Punjab in rabi crops M. Sharma	15
The Chemical composition of turnip as influences by some pre-emergence herbicides P. B. Sharma, M. S. Saimbhi and B. N. Sharma	19
Some characteristics of an inhibitory factor in <i>Polygonum orientale</i> L. S. C. Datta and A. K. Mukherjee	23
Chemical weed control in onion (<i>Allium cepa</i> L.) M. L. Pandita, R. D. Bhutani and G. P. Singh	34
Some observations on the root system of some tropical dicotyledonous weeds S. V. R. Shetty and R. K. Maiti	41
Weed control studies on low land jute (<i>Chorchorus capsularis</i> L.) through chemical and Cultural methods G. R. Patro, G. C. Tosh and R. C. Das	49
Differential tolerance of sugarcane varieties to herbicides B. K. Sahi, M. Lall and P. N. Chowdhary	54
Comparative efficiency and selectivity of herbicides in okra B. P. Singh	63
Weed control in direct seeded and transplanted rice S. K. Kaushik and V. S. Mani	73
Requirement of weed free period in sunflower Govindra Singh and Vikram Singh	79
Weed management in upland paddy Gurmel Singh and R. S. Chauhan	83
