

INDIAN JOURNAL OF WEED SCIENCE

Vol. 43, No. 3 & 4 July-December, 2011

CONTENTS

Title	Page
Aquatic weeds problems and management in India - <i>Sushilkumar</i>	118-138
Effects on production potential and economics of direct seeded rice sowing dates and weed management techniques - <i>Devendra Mandal, D. Singh, Rakesh Kumar, Anupma Kumari and Vinod Kumar</i>	139-144
Bio-efficacy of herbicides applied at the 2 to 4 leaf stage of weeds in sugarcane after second interculture - <i>Rohitashav Singh, Radhey Shyam, Amit Bhatnagar, V. K. Singh and Jitendra Kumar</i>	145-148
Effect of different herbicides on weeds and lac yield in <i>bhalia</i> plantation - <i>B.P. Singh, S. Ghosal and A.K. Singh</i>	149-152
Optimizing the surfactant dose for sulfosulfuron and ready mix combination of sulfosulfuron and carfentrazone against weeds in wheat - <i>R.S. Chhokar, R.K. Sharma and Subhash Chander</i>	153-162
Productivity and economics of rice-zero till maize as influenced by weed management practices in southern Telangana region of Andhra Pradesh - <i>B. Mukundam, S. Srividya and V. Raja</i>	163-168
Efficacy of imazethapyr on weed management in soybean - <i>D.S. Meena, Baldev Ram, Chaman Jadon and J. P. Tatarwal</i>	169-171
Efficacy of pre and post emergence herbicides on weed flora of urdbean under rainfed subtropical Shiwalik foothills of Jammu and Kashmir - <i>Brij Nandan, B.C Sharma, Anil Kumar and Vikas Sharma</i>	172-174
Chemical weed control in transplanted rice in Hirakud command area of Orissa - <i>A.K. Patra, J. Halder and M.M. Mishra</i>	175-177
Isolation and pathogenecity of some native fungal pathogens for the biological management of water Hyacinth - <i>Aditi Pathak and C. Kannan</i>	178-180
Persistence of pendimethalin and oxyfluorfen at different temperature and moisture levels in an alfisol and vertisol - <i>A. Sireesha, P.C. Rao, G. Swapna and Ch.S. Ramalakshmi</i>	181-187
Screening for antipathogenicity of weeds - <i>C. Sarathambal, Anjana Chourasiya and K.K. Barman</i>	188-191
Efficacy of mechanical, cultural and chemical methods on weed suppression and yield of lentil - <i>V.K. Singh, Vivek Dixit, Rohitashav Singh and Ashutosh Barthwal</i>	192-194
Bio-efficacy of clodinafop-propargyl + metsulfuron methyl against complex weed flora in wheat - <i>Suresh Kumar, N.N. Angiras and S.S. Rana</i>	195-198
Persistence and dissipation of pretilachlor in soil, plant and water of coastal rice ecosystem - <i>S. Dharumarajan, R. Sankar and S. Arun</i>	199-202
Weed population, nitrogen removal by weeds and crop yield under maize + blackgram Intercropping system in Chhattisgarh plains - <i>Sanjay K. Dwivedi, G. K. Shrivastava, A. P. Singh and S.S. Kolhe</i>	203-210
Biological based chemical integration for early control of water hyacinth - <i>Sushilkumar</i>	211-214
Chemical weed control in wheat through on form demonstrations in Rewa district of Madhya Pradesh - <i>R.K. Tiwari, I.M. Khan, Nirmala Singh and Amit Jha</i>	215-216

SHORT COMMUNICATION

Effect of different weed management practices on weed density and weed dry matter production in system of rice intensification (SRI)	217-221
- <i>Devendra Dewangan, A.P. Singh, H. Nirala and M. Verma</i>	
Occurrence of soil microbes under Parthenium weed in Tamil Nadu	222-223
- <i>C. Jeyalakshmi, Sabitha Doraisamy and V. Valluvaparidasan</i>	
Lead and manganese accumulation by weeds at heavy metal contaminated sites in Jabalpur	224-225
- <i>P. J. Khankhane and Jay G. Varshney</i>	
Weed management in okra grown in kharif season under middle Gujarat conditions	226-227
- <i>Shweta Sharma and B.D. Patel</i>	
Critical period of crop-weed competition in zero-till cotton	228-230
- <i>P. Ayyadurai and R. Poonguzhalan</i>	
Effect of aqueous leaf extract of Parthenium on seed germination and seedling emergence of some cultivated crops	231-232
- <i>J.A. Dhole, S.S. Bodke and N.A. Dhole</i>	
Nutrient depletion by weeds, yield and economics of drum seeded rice influenced by weed management	233-235
- <i>S.P. Sangeetha, A. Balakrishnan, R. Sathya Priya and J. Maheswari</i>	
Effect of rice straw incorporation on weed management and crop growth in rice	236-238
- <i>Pratibha Singh and S.K. Guru</i>	
Effect of weed control treatments on growth of little seed canary grass and productivity of wheat	239-240
- <i>R.K. Tiwari, B.S. Dwivedi, G. Deshmukh, A.K. Pandey and Amit Jha</i>	
Chemical and cultural methods for weed control of moong bean under limited moisture conditions of Kandi belt of Jammu	241-242
- <i>Brij Nandan, Anil Kumar, B.C. Sharma and Neetu Sharma</i>	
Impact of weeders for weed management in system of rice intensification (SRI)	243-244
- <i>Ghanshyam Deshmukh and R.K. Tiwari</i>	

Cover Photo:

Main: *Polypogon monspeliensis* infestation in wheat field. Inset: Pot study exhibiting enhanced efficacy of sulfosulfuron with surfactant on *Polypogon monspeliensis*; from left to right, control, sulfosulfuron 25 g/ha without surfactant, sulfosulfuron 25 g/ha with 625 ml/ha surfactant and sulfosulfuron 25 g/ha with 1250 ml/ha surfactant. For more information read article by Chhokar *et al.* on pages 153-162. Photo courtesy Dr. Samunder Singh, Principal Scientist, Department of Agronomy, CCS HAU Hisar (main photo) and Dr. R. S. Chhokar, Senior Scientist, Resource Management Unit, Directorate of Wheat Research, Karnal- 132 001 (Haryana), India (inset photo).
